PROJECTS

TECHNOTES - [Website](#) | [Github](#) 07/2023 - 08/2023

- Developed backend API for user and note management, including validation, error handling, and login limits, in a two-week span, ensuring functionality and security
- Implemented client-side routing using React Router to create a dynamic single-page application with role-based access control (employee, manager, admin), showcasing front-end development skills

EVOGYM - [Website](#) | [Github](#) 07/2023 - 08/2023

- Designed and developed a responsive and user-friendly UI using React and Tailwind CSS, ensuring optimal display across all devices, demonstrating a commitment to user experience
- Attained a Lighthouse scores of 90+ for performance, accessibility, best practice, and SEO, showcasing strong website optimization expertise

EXPERIENCE

Google New York, NY Google's Mentorship and Development Program Mentee 11/2020 - 06/2021

- Selected for a competitive program focused on Python programming, problem-solving, and professional development, highlighting a strong aptitude for technical learning and a collaborative approach
- Enhanced technical skills through hands-on labs, coaching sessions with Google engineers, and project-based learning, further developing a solution-oriented mindset
- Met 1:1 with Google engineers over a 6-month period to develop personal and professional goals

New York-Presbyterian / Weill Cornell Medical Center New York, NY Nurses Aid 01/2019 - Present

- Adapted quickly to new software and technologies used in a fast-paced, high-pressure healthcare setting, demonstrating a capacity for continuous learning
- Communicated clearly and empathetically with patients, families, and medical staff to build rapport and trust while addressing their questions and concerns
- Proactively identified and resolved patient care-related issues, demonstrating strong problem-solving skills and a commitment to providing excellent service
- Facilitated smooth transitions of care by maintaining accurate and timely patient records within the electronic health record (EHR) system, ensuring data integrity and accessibility for the healthcare team

EDUCATION

Flatiron School New York, NY Full Stack Web Development, Python and JavaScript program 06/2022 - 10/2022

Queensborough Community College Queens, NY A.A.S. Computer Information Systems 01/2020 - 12/2021

CERTIFICATIONS

Oracle Cloud Infrastructure 2023 Certified Foundations Associate August 17, 2023
